Professional Experience:

PRINCIPAL INVESTIGATOR/SENIOR TEAM LEADER, History Flight, Inc., 5409 Overseas Highway #101, Marathon, FL 1/2016-Present

RESPONSIBLE FOR PLANNING AND IMPLEMENTATION of the archeological investigation and recovery from the inception of the operation to its end state, ensuring all actions taken at the recovery scene meet the highest standards of scientific integrity and are compatible with guidelines found in the DPAA-Laboratory SOP.

SUPERVISES AND PROVIDES LEADERSHIP for the Co-Principal Investigator as well as all host nation scientists involved with History Flight operations and all History Flight team members assigned for recovery work. Acting as the senior History Flight member involved in assigned excavations.

PROVIDES EXECUTIVE LEADERSHIP as the senior most experienced Team Leader in any required capacity or as directed by the History Flight Director.

CURRENTLY RESPONSIBLE FOR AND DEVELOPING all History Flight operations within the Republic of the Philippines to include national and local permitting, host nation liaison services and all logistical planning and execution for a multi-year, multi-site international project to search for and recover the remains of over 11,000 Missing in Action servicemen from World War II.

TEAM LEADER/TEAM MEDIC, History Flight, Inc., 5409 Overseas Highway #101, Marathon, FL 11/2013-1/2016

SUPERVISED AND PROVIDED LEADERSHIP for a team deploying worldwide for research and recovery projects dedicated to recovering the remains of our Missing in Action servicemen as part of a 501c3 Non-Profit organization. Responsible for the planning and field operations of a research and recovery team comprised of an archeologist/anthropologist, EOD technician, medic, local national workers and civilian volunteers.

SERVED AS THE LEAD PLANNER for the on-going History Flight Tarawa project which is dedicated to the recovery and identification of over 500 U.S. Marines still missing from the Battle of Tarawa.

PROVIDED MEDICAL PLANNING AND TREATMENT to civilian team members and local national workers for deployments worldwide in support of History Flight research and recovery operations.

MEDICAL OPERATOR, Joint POW/MIA Accounting Command (JPAC), Joint Base Pearl Harbor/Hickam, HI 07/2009-10/2013

PROVIDED MEDICAL CARE AND TREATMENT within an organization that deploys worldwide to austere and remote sites for the purpose of locating, recovering and identifying the remains of U.S. Servicemen and civilians missing in action from past conflicts to include WWII, the Korean War and the Vietnam War. Capable of stabilizing and evacuating U.S. military and civilian emergency and trauma patients from any location worldwide within 72 hours. Responsible for unit medical readiness and treatment of U.S. and indigenous personnel when deployed.

PROVIDED MEDICAL INTELLIGENCE AND PLANNING, for worldwide missions in support of the JPAC mission to include preparation of medical threat briefings to the command and deploying personnel, development and implementation of site specific medical evacuation plans utilizing international, host nation and U.S. assets. Responsible for maintaining medical equipment and supplies required to support temporary medical facilities to support operations with emergency, routine and long term medical care.

SUPERVISED AND TRAINED all augmented medical personnel assigned to support the JPAC mission. Responsible for development and implementation of an accelerated training program designed to assist non-organic medical personnel with understanding and executing JPAC's specialized mission.

COMPANY SENIOR SPECIAL FORCES MEDICAL SERGEANT, 1st Special Forces Group (A), Joint Base Lewis-McChord, WA 12/2007-07/2009

SKILLED AND RESPECTED SENIOR MEDIC for a 90 man Special Forces Company. Developed and executed real-world medical evacuation plans in support of Company and detachment training, and combat operations. Advised the commander on medical operational issues effecting combat operations for the largest Special Operations element in Northern Iraq in support of Operation Iraqi Freedom (OIF)-VI. Responsible for overall unit medical readiness prior to, and during training and combat deployments.

Planned and executed numerous Company and Battalion sized medical training events to include a Battalion deployment to the National Training Center. Responsible for procurement and distribution of medical supplies for seven Special Forces detachments during training and combat operations.

SUPERVISED AND DIRECTED 12 Special Forces Medical Sergeants in planning, medical readiness, training and tracking of equipment during all phases of deployment and redeployment. Served as the Company Operations Sergeant by managing a staff of 8 soldiers, advising and assisting the command during daily functions.

PERFORMED ADMINISTRATIVE FUNCTIONS AND COMMUNICATION. Performed duties as the Company level Administrative Officer responsible for timely and accurate processing and tracking of all administrative functions and reports. Assisted the commander in the review and accuracy of all personnel evaluations and awards. Prepared correspondence using Word; prepared a variety of Soldier readiness and classified training reports. Conducted briefings via Video Teleconference (VTC) and PowerPoint.

PLANNING, DEVELOPMENT AND PROBLEM SOLVING. Developed and executed all Company level medical training. Assisted the commander in the approval of all Concepts of Operations (CONOPS) for seven Special Forces Detachments during training and combat operations. Performed liaison duties with numerous support elements and Non-Governmental Organizations co-located with the Company Headquarters in Northern Iraq. Personally developed and implemented a security plan which combined a human intelligence network imbedded within the local national workers and guard force, and the conventional military forces located on the largest coalition base in Northern Iraq resulting in zero insurgent attacks on the base.

Served as the Company Air Officer by planning, coordinating and executing all Company and detachment level air operations. Responsible for tracking and maintaining unit and individual airborne proficiency.

SPECIAL FORCES MEDICAL SERGEANT, 1st Special Forces Group (A), Joint Base Lewis-Mchord, WA 03/2003-12/2007

HIGHLY TRAINED ASYMMETRIC WARFARE OPERATOR. Employed conventional and unconventional warfare tactics and techniques in providing medical care and treatment. Developed, implemented and briefed at the Secretary of Defense level the first ever medical evacuation plan which covered the entire Iraqi Kurdish region. Combat advised and assisted an Iraqi Army Infantry Company in training and operations.

Worked with the intelligence section of the Kurdish Regional Government to collect and analyze human intelligence which was used to develop targeting packages throughout Northern Iraq. Developed a robust human intelligence network which spanned across Northwest Iraq and included actionable intelligence on insurgent networks and training camps. Worked directly with Coalition Tier I units in the development and execution of operations targeting the most-wanted terrorist in Iraq.

SUPERVISED AND MANAGED ALL MEDICAL ASPECTS for a 12 man Special Forces Operational Detachment-A (ODA). Advised the detachment commander on medical planning for all training and combat operations. Ensured detachment medical preparation and maintained medical equipment and supplies, provided examination and care to detachment members and established temporary, fixed and unconventional warfare medical facilities to support operations with emergency, routine and long-term medical care.

PERFORMED ADMINISTRATIVE FUNCTIONS AND COMMUNICATION. Provided initial medical screening and evaluation of allied and indigenous personnel. Managed detachment, allied or indigenous patient's administration, admission and discharge, care, laboratory and pharmacological requirements and the initiation, maintenance and transfer of records. Ordered, stored, cataloged, safeguarded and distributed medical supplies, equipment and pharmaceuticals.

SKILLED MEDICAL PROVIDER capable of operating a combat laboratory, treated emergency and trauma patients in accordance with established surgical principles. Diagnosed and treated various medical dermatological, pediatric, infectious and obstetric conditions using appropriate medications, intravenous fluid support and physical measures. Developed and provided medical intelligence as required.

BATTALION AIR OFFICER, 2nd Battalion, 325th Airborne Infantry Regiment, Fort Bragg, NC 07/2000 - 06/2001

PLANNED, COORDINATED AND SUPERVISED all Battalion Airborne Operations, fixed and rotary wing, to ensure that the Battalion was ready to deploy anywhere in the world within 18 hours. Flawlessly coordinated and executed six Brigade level airborne operations to include a Joint Readiness Training Exercise, and the Joint Services Open House successfully dropping over 5000 personnel and 30 heavy drop platforms with no serious incidents.

PROVIDED LEADERSHIP, TRAINING AND RESOURCE MANAGEMENT. Established the Battalion Pre-Jumpmaster Program which resulted in 40% increase in Battalion Jumpmasters and the most in the Division. Responsible for training new vehicle sling-load and Pick-up Zone control teams that successfully executed two Battalion Air Assaults. Served as the Battalion Master Jumpmaster and Task Force Battle Non-commissioned Officer. Tracked, reported and maintained Battalion and individual Jumpmaster and airborne proficiency.

PERFORMED MISSION BRIEFINGS AND COMMUNICATION. Conducted numerous Jumpmaster briefs for all Task Force Jumpmasters. Continually liaised and coordinated air operations with the G-3 Air, Arrival/Departure Airfield Control Group, the Air Force Base Command Post and the Heavy Drop Rigging Site in order to ensure seamless execution of all Battalion missions. Advised the commander on all aspects of air operations and training.
